7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

As stated in SWMP BMP 2-11 WAVE-Wadeable Assessments for Volunteer Evaluators, by 9/30/2013 Coalition staff researches how and if Coalition members could integrate their need to develop MS4 Permit compliant public participation activities with the objectives of the NYSDEC WAVE program.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The NYSDEC WAVE program was a pilot program in 2012 (summer) and judging from continued promotion of WAVE trainings, it appears to be a DEC initiative likely to last. While little was done last year to actively pursue WAVE, it's continued presence now, two years later, makes it an attractive way to engage volunteers in stream monitoring, while generating useful data. Integrating WAVE into Coalition operations is clearly worth pursuing.

C. How many times was this observation measured or evaluated in this reporting period?

D. Has your MS4 made progress toward this measurable goal during this reporting period?

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

BMP 2-3 SWMP: Update with and/or for members SWMP data managed using MS4web (CBI), secure student intern help, coordinate with members content of updates (drop/add BMPS, revise measurable goals), complete two SWMP updates (Coalition, 1 member). BMP 2-6 Clean Up Activities: Write/distribute at collection locations, a generic "Thank You" on Coalition letterhead which also explains stormwater pollution, waste disposal, gross solids, impact on water quality.

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.
